

Lighting Design Group

SELECTED PROJECT EXPERIENCE CHILDREN'S PLAY CENTERS

CD+M Lighting Design Group is an international lighting design consultancy comprised of designers whose work encompasses a variety of markets. Our award-winning design team has extensive experience creating innovative custom lighting plans to enhance architectural environments. Our clients include leading architects, interior designers and developers in more than 20 countries worldwide.

With staff in the US, UAE, UK and PRC, our designers are fluent in multiple languages, maintain close ties to global manufacturers and suppliers and have an excellent understanding of how to integrate lighting into both architecture and landscaping.

CLUB DISNEY, THOUSAND OAKS, CA

The Club Disney prototype opened in 1997 as an "imagination-powered playsite" in Thousand Oaks, Calif., just north of Los Angeles. The 24,500 SF building featured four activity areas designed around Disney's animated films and six private party rooms for birthdays and field trips. Ted Ferreira provided interior and exhibit lighting design support for project under contract to Walt Disney Imagineering.

WANNADO CITY, FORT LAUDERDALE, FL

Wannado City in Fort Lauderdale, FL, was a 110,000 SF children's theme park. As a prototype, budgetary goals were aggressively enforced and met at approx. \$1.3M and there was not an applicable energy criteria. Over 300 unique fixture types were specified. The design concept was to create a miniature city which endlessly cycles between day and night across the whole interior of the facility. It was a child-sized representation of a metropolis where children aged 2-14 could participate in different careers and other lifelike activities.

PUTERI HARBOUR, JAHOR, MALAYSIA

The popular family theme park houses two international attractions: Sanrio Hello Kitty Town and The Little Big Club. Opened in late Oct 2012, it has surpassed the half a million mark on its first anniversary. Sanrio Hello Kitty Town Hello Kitty theme park is the first outside of Japan with attractions and activities including an interactive theme park experience. The theme park contains four floors with an area of 80,000 SM. CD+M worked together with client Forrec on interior public areas for lighting design.
