

Lighting Design Group

SELECTED PROJECT EXPERIENCE

LEED® CERTIFIED

CD+M Lighting Design Group is an international lighting design consultancy comprised of designers whose work encompasses a variety of markets. Our award-winning design team has extensive experience creating innovative custom lighting plans to enhance architectural environments. Our clients include leading architects, interior designers and developers in more than 20 countries worldwide.

With staff in the US, UAE, UK and PRC, our designers are fluent in multiple languages, maintain close ties to global manufacturers and suppliers and have an excellent understanding of how to integrate lighting into both architecture and landscaping.

KING ABDULLAH UNIVERSITY OF SCIENCE & TECHNOLOGY, THUWAL, KSA

Built on the coastline of the Red Sea, the King Abdullah University of Science & Technology is a 36 million SM university, commercial and residential complex. The expansive development is comprised of a range of academic buildings, research facilities and labs, innovation and technology centers, convention facilities, mosques, recreation areas and residences. CD+M’s site and master plan lighting design for the project included roads, parking, landscaping, iconic architecture and public art. The site is slated to accommodate 20,000 people.

MARTIN LUTHER KING JR. FEDERAL BUILDING RENOVATION, ATLANTA, GA

Constructed in 1933 as the main U.S. Post Office for Atlanta, the Martin Luther King Jr. Federal Building will soon house the Southeastern headquarters for the General Services Administration. The building carries the cultural distinction of being the first structure named in honor of the late Reverend Dr. Martin Luther King, Jr. The project, targeting LEED® Silver Certification, is a fusion of rehabilitation, renovation and environmentally conscious design. Sustainable design features include high efficiency mechanical and lighting systems and incorporation of daylighting strategies. These tactics will give the building an energy usage that is 15 percent better than code.

MOTOROLA MOBILITY HEADQUARTERS, CHICAGO, IL

Working closely with Motorola, Gensler and CD+M created a space that integrates interior architecture with the latest thinking in technology, strategic workplace design, lighting controls and sustainable design. The project team achieved a rare LEED Platinum Certification by carrying out practical and measurable strategies. The new 600,000 SF workspace includes open, collaborative office spaces, an outdoor terrace, lab benching and production line equipment and several amenity spaces, including food service, a conference center and customer service center.
