

Lighting Design Group

SELECTED PROJECT EXPERIENCE MASTER PLANNING

CD+M Lighting Design Group is an international lighting design consultancy comprised of designers whose work encompasses a variety of markets. Our award-winning design team has extensive experience creating innovative custom lighting plans to enhance architectural environments. Our clients include leading architects, interior designers and developers in more than 20 countries worldwide.

With staff in the US, UAE, UK and PRC, our designers are fluent in multiple languages, maintain close ties to global manufacturers and suppliers and have an excellent understanding of how to integrate lighting into both architecture and landscaping.

KING ABDULLAH UNIVERSITY OF SCIENCE & TECHNOLOGY, THUWAL, KSA

Built on the coastline of the Red Sea, the King Abdullah University of Science & Technology is a 36 million SM university, commercial and residential complex. The expansive development is comprised of a range of academic buildings, research facilities and labs, innovation and technology centers, convention facilities, mosques, recreation areas and residences. CD+M's site and master plan lighting design for the project included roads, parking, landscaping, iconic architecture and public art. The site is slated to accommodate 20,000 people.

BEIJING OLYMPIC GREEN, BEIJING, PRC

In 2007, CD+M was the only US-based lighting consultant invited to participate in the waterfront design of the Beijing Olympic Green, adjacent to the National Stadium as conceived by Herzog & de Meuron Architects. CD+M developed a series of lighting design schemes which encompassed state-of-the-art LED light poles at the river's edge, landscape and pathway lighting solutions based on the masterplan design by lead consultants SWA Group and Beijing Institute of Architectural Design (BIAD).

CITY OF LIGHTS, ABU DHABI, UAE

The City of Lights on Al Reem Island is a breathtaking community set amidst a verdant, waterfront oasis. Draped across 101 acres of land, the area will include commercial and residential properties, including hotels, offices, retail space and residential accommodation. Towers will be built along a waterfront promenade and be interlinked by lush, landscaped plazas with signature clusters of date palms. World-class shopping and dining establishments will line the waterfront, which will offer an array of water-based activities and sports. CD+M provided a concept lighting master plan for the site and framework guidelines for the developers of the towers along the site.
