

Lighting Design Group

SELECTED PROJECT EXPERIENCE

PUBLIC & INSTITUTIONAL - ASIA

CD+M Lighting Design Group is an international lighting design consultancy comprised of designers whose work encompasses a variety of markets. Our award-winning design team has extensive experience creating innovative custom lighting plans to enhance architectural environments. Our clients include leading architects, interior designers and developers in more than 20 countries worldwide.

With staff in the US, UAE, UK and PRC, our designers are fluent in multiple languages, maintain close ties to global manufacturers and suppliers and have an excellent understanding of how to integrate lighting into both architecture and landscaping.

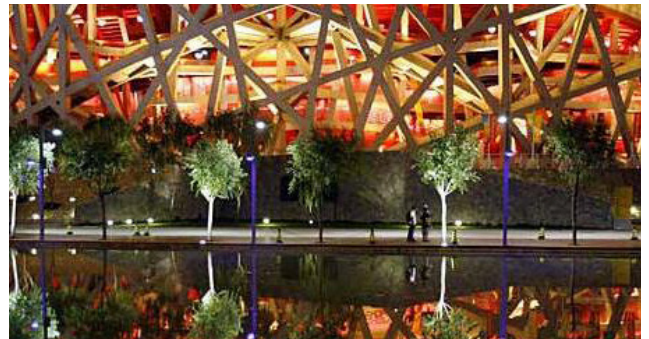

DAGU BRIDGE, TIANJIN, PRC

The DaGu Bridge was one of the foremost projects to emerge as part of Tianjin, China's massive city renewal project. Stationed at the center of Tianjin's redevelopment area, the DaGu Bridge is a six-lane auto and pedestrian thoroughfare crossing the Haihe River. The DaGu Bridge was awarded a prestigious FIGG Award by the American Society of Civil Engineers, for the landmark design of bridges, and a 2006 IESNA Award of Merit in Lighting Design.

BEIJING OLYMPIC GREEN, BEIJING, PRC

In 2007, CD+M was the only US-based lighting consultant invited to participate in the waterfront design of the Beijing Olympic Green, adjacent to the National Stadium as conceived by Herzog & de Meuron Architects. CD+M developed a series of lighting design schemes which encompassed state-of-the-art LED light poles at the river's edge, landscape and pathway lighting solutions based on the masterplan design by lead consultants SWA Group and Beijing Institute of Architectural Design (BIAD).

TRANSPORTATION HUB, CHANGZHOU, PRC

The Transportation Hub contains a railway station and a long distance bus terminal, that plays an important role in the transportation of this fast-growing city in South-East of China – Changzhou. CD+M provided the lighting concept for the architectural façade and landscape portion of this hub. A selection of sleek, modern, stream-lined lighting fixtures and techniques were chosen to help propel this Transportation Hub and city, into the forefront of a world's stage and to create a lasting impression.
